

**REMARKS**

This Amendment is submitted to

- correct grammar by making "azide" plural
- incorporate the administering step recited in claim 37 part (b) into part (a)
- maintain consistency by using "the" rather than "said"
- clarify that it is the photoactivated organic azides that cause necrosis and/or apoptosis at the target tissue.

No new matter is added; the amendments simply correct one Examiner's error and Applicants' grammar and syntax, and clarify the phototherapeutic mechanism.

**CONCLUSION**

Applicants do not believe that any fees are due but, if deemed necessary, the Examiner is authorized to charge them to Deposit Account No. 23-3000.

The Examiner is invited to contact Applicant's undersigned representative with questions.

Respectfully submitted,  
WOOD, HERRON & EVANS, L.L.P.
